

Snow Writing

Kit contains:

- Squeeze bottle
- Marker ink tubes

You will need: water and your winter coat. It's cold outside!

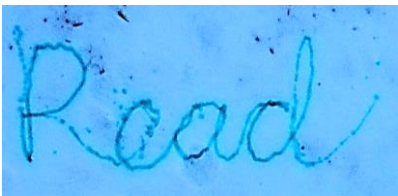

MORTON GROVE PUBLIC LIBRARY

INSTRUCTIONS

Step 1. Put one or both of the marker ink tubes in your squeeze bottle. Fill with water. Wait 15 minutes until your water changes color. (If you use two different ink tubes, predict the color of the water.)

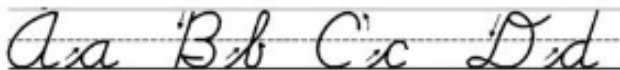

Step 2. Squeeze the colored water into the snow to write a message.

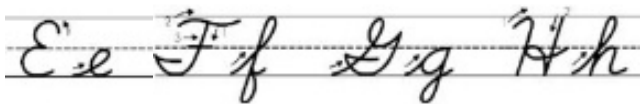

Refill the squeeze bottle with water as needed.

TRY WRITING IN CURSIVE

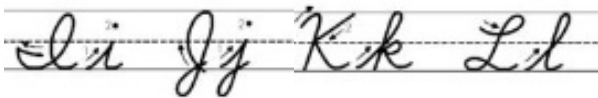

When you use a squeeze bottle to write in the snow, it's natural for the letters to join together. Practice writing in cursive script: your letters are supposed to connect!
